

**Walter Cudnohufsky – Author & Principal of Walter Cudnohufsky Associates, Inc.**

Walt is a registered Landscape Architect with over forty-four years of experience ranging from the plaza design for the Toronto City Hall to regional planning studies for the North Atlantic Regions to private residences in the Berkshires. He received his M.L.A. from the Harvard Graduate School of Design and B.S.L.A. from Michigan State University. His interest in analysis, concept development and design process led him to found the nationally recognized graduate program at the Conway School of Landscape Design in 1972. In 1992, after 20 years as CSLD director, he returned full-time to his ongoing private practice.

Walt is quick to identify attributes and constraints, offer compelling ideas, and define simple, innovative concepts that lead to uniquely appropriate design solutions. He is a regular speaker and workshop leader at regional and national forums and frequently facilitates energizing and productive meetings for a wide variety of organizations and institutions. Across five decades as a design educator, artist, and practicing landscape

architect, Walt has developed a rich portfolio of design ideas and discoveries and has a tested and cogent message about the process of achieving design. These ideas and lessons are now available in print: *Cultivating the Designers Mind: Principles and Process for Coherent Landscape Design*, written with longtime collaborator Mollie Babize.
